DETAILED ACTION

1. This Office Action responds to Applicant's amendment, IDS, and Terminal Disclaimer filed on 8/9/2004, supplemental amendment filed on 8/30/2004, and IDS filed 8/4/2004, and interview conducted on 8/13/2004. Claims 1-13,15-20 are pending, wherein claim 14 has been cancelled and claims 1,13,15-20 have been amended. Claims 1-13,15-20 have been examined and are allowed, wherein claim 20 is subjected to the following Examiner's Amendment.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

As per **claim 20**, --for-- has been inserted after "instructions" (line 2), for proper grammar (which is similar to claim 19).

Information Disclosure Statement

3. Acknowledgement is made of the IDS filed electronically on 8/4/2004. Although the Examiner is unable to access this IDS due to some database and/or network error, a copy of this IDS is also found with the 8/9/2004 filing. Accordingly, the IDS filed on 8/4/2004 has been considered.

Terminal Disclaimer

Art Unit: 2825

4. The terminal disclaimer filed on 8/9/2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent Application Nos. 10/066,456, 10/062,047, and 10/061,719, has been reviewed and is accepted. The terminal disclaimer has been recorded.

Allowable Subject Matter

5. **Claims 1-13,15-20** are allowed.

6. The following is an examiner's statement of reasons for allowance:

As per **claims 1-13,15-20**, the independent claims 1 and 17, which the respective depend, recite the method/computer readable medium that stores a computer program, for performing technology mapping on a design that is not bounded to a particular technology, comprising the inventive features in which during an iteration, a first candidate sub-network is replaced in the design with a first replacement sub-network, and during another iteration, the second candidate sub-network is being replaced with a second replacement sub-network, wherein the second candidate sub-network comprised of at least one but not all circuit elements of the first replacement sub-network, as part of the mapping steps/means as claimed (see interview conducted on 8/13/2004 and amendment filed on 8/9/2004, pages 7-9). Other prior arts made of record similarly failed to teach or suggest the inventive features as claimed. In addition, Terminal Disclaimer filed on 8/9/2004 overcomes the outstanding double patenting rejection. Accordingly, the claims are novel and un-obvious over the prior arts made of record.

Conclusion

7. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
